

Graduate School of Creative Science and Engineering Architectural Art and Engineering Department of Architecture Waseda University

English Based Graduate Program for Master Starting from September, 2018

Admission will start from December 2017 to May 2018

The Department of Architecture at Waseda University aspire to provide world-class education and research opportunities for students to acquire cutting edge knowledge and to prepare long lasting career as architectural professionals. To achieve this goal, our graduate program offers the architectural art field, including architectural history, architectural planning, and urban planning, as well as the architectural engineering field, including environmental engineering and structural mechanics.

From September 2018, The Department of Architecture starts English based graduate program for master. The newest addition to our graduate program is built upon the rich history of Waseda Architecture established in 1909. The Department of Architecture opens the door widely to international students and expects to flourish and grow together in a globalized world.

Each student belongs to the supervisor's laboratory. Students take a coursework and participate in projects in real-world environment with other members of laboratory. The Department of Architecture offers the internship program and also the exchange program with other universities.

Supervisor and Research Area

Assoc. prof. Masaki Koiwa
Prof. Norihito Nakatani

Comparative Architectural History
Temporal Aspects for Architectural
Expression

Prof. Nobuaki Furuya
Assoc. prof. Yuri Fujii
Assoc. prof. Taishi Watanabe

Architecture and Space Concepts
Architecture and Space Concepts
Architecture and Sociological
Concepts

Assoc. prof. Keigo Kobayashi
Lecturer Takeshi Yamamura
Prof. Takashi Ariga
Prof. Tetsuya Yaguchi

Architectural Design and Information
Architectural Design Concepts
Urban and Environmental Design
Regenerative Design of the Built
Environment

Prof. Yuji Hasemi

Safety Planning in Built
Environments

Prof. Shin-ichi Tanabe
Prof. Hiroto Takaguchi
Prof. Toshiro Maeda

Architectural Environments
Environment Media
Continuum Mechanics

Degree : Master of Architecture or Engineering
